LEVEL SEVEN EARNS CERTIFIED FOR MICROSOFT DYNAMICS ACCREDITATION

Level Seven's ERP Software for Reman Meets Microsoft's Highest Standard for Partner-Developed Software Solutions

(CLEVELAND, OHIO — JANUARY 11, 2016) Level Seven announced today that its ERP solution exclusively for the remanufacturing industry is now Certified for Microsoft Dynamics. This certification signifies that the solution has met Microsoft Corporation's highest standard for partner-developed software. By successfully meeting all certification requirements, Level Seven's ERP Software for Reman can now carry the distinct Certified for Microsoft Dynamics logo.

Solutions that are Certified for Microsoft Dynamics have demonstrated development quality and compatibility with the Microsoft Dynamics product on which it runs by passing rigorous VeriTest software solution testing for Microsoft Dynamics. In addition, the Microsoft Dynamics partner must have customers who are successfully using the certified solution and are willing to recommend it, be enrolled in a Partner Service Plan with Microsoft, and be a Certified Partner in the Microsoft Partner Program.

Microsoft congratulates Level Seven on achieving the Certified for Microsoft Dynamics status for its ERP Software for Reman by demonstrating its success and commitment in delivering a leading Microsoft Dynamics solution.

Level Seven's ERP Software for Reman serves the unique needs of a remanufacturing organization. From core management and disassembly processes to the challenges surrounding the recovery, supply planning and utilization of core in remanufactured products, Level Seven's ERP Software for Reman allows remanufacturers to serve customers faster and more efficiently. Built on Microsoft Dynamics NAV, this solution is designed to scale with growth to deliver long-term value and solutions fully integrated across the entire enterprise, allowing remanufacturers to make informed decisions that directly impact their bottom line.

Level Seven provides implementation, training and consultation for small, midmarket and corporate businesses using business applications. As a Microsoft Dynamics Certified Silver partner, Level Seven specializes in Microsoft Dynamics NAV to help leading global companies in the manufacturing, remanufacturing and automotive industries achieve success.

About ERP Software for Reman

Level Seven has developed a software solution fully integrated into Microsoft Dynamics NAV that specifically addresses the unique challenges of the remanufacturing industry. From features that handle core management and disassembly processes, to the challenges associated with the recovery, supply planning and utilization of core in your remanufactured products, Microsoft Dynamics NAV for Reman allows remanufacturers to improve customer service with greater efficiency.

About Level Seven

Level Seven is committed to being an agent of change for our clients. Our clients include startups with emerging products and services to Fortune 500 companies looking to improve on existing business functions. All of our clients have one thing in common: They need to change the way they run their business to be more efficient and more profitable in today's ever-changing competitive economy.

For three decades, Level Seven has been helping clients take their businesses to the next level. We translate insight into streamlined processes and improved efficiencies — resulting in better service to our customer and better relationships among employees. For more information, visit lvlsvn.com.

About Microsoft Dynamics

Microsoft Dynamics is a line of financial, customer-relationship and supply-chain management solutions that helps businesses work more effectively. Delivered through a network of channel partners providing specialized services, these integrated, adaptable business management solutions work like and with familiar Microsoft software to streamline processes across an entire business.
